

Federal Fiscal Year (FFY) 2015 State/Regional Federal (FHWA) Resource Table (All figures are in \$ millions)

Final as of 9/30/14	TIP Code	Annual Federal (FHWA) Resources ¹	Carry-Over ²	Resources Available
MAP-21 Resources				
National Highway Performance Program ³	NHPP	\$759.253	\$12.822	\$772.075
Surface Transportation Program ^{3,4}	STP-U	\$187.629	\$8.791	\$196.420
Highway Safety Improvement Program ³	HSIP	\$73.696	\$66.446	\$140.142
Bridge	BRR	\$33.723	\$19.767	\$53.490
Rail-Highway Grade Crossings	RHGC	\$10.346	\$28.194	\$38.540
Recreational Trails	RECT	\$1.510	\$3.086	\$4.596
Transportation Alternatives Program	TAP-S	\$18.427	\$35.989	\$54.416
Transportation Alternatives Program - Local ⁶	TAP-L	\$8.778	\$14.318	\$23.096
STP Local ^{5,6}	STP-L	\$123.492	\$153.778	\$277.270
STP Counties ⁶	STP-C	\$5.149	\$13.833	\$18.982
CMAQ ^{3,6}	CMAQ	\$105.470	\$68.273	\$173.743
Carryover Resources				
Equity Bonus	ЕВ	n/a	\$58.738	\$58.738
STP (Enhancement 10%)	STP-E	n/a	\$121.197	\$121.197
High Priority Projects	HPP, and various section funds	n/a	\$197.081	\$197.081
Safe Routes to Schools	SRTS	n/a	\$20.050	\$20.050
Total		\$1,327.473	\$822.363	\$2,149.836

Sources:

- 1. Annual resources for MAP-21 are derived from FHWA (FMIS database) or as directed by IDOT and reflect the end of FFY 14 balances as shown on 10/1/14.
- 2. Carryover amounts are unobligated federal funds from previous federal transportation bills that remain available to be used. The carryover balances are derived from FHWA (FMIS as of 9/30/14) or are calculated by CMAP staff.
- 3. MAP-21 amounts for these funds are net amounts after deductions for TAP and State Planning Research (SPR) funds have been taken, as prescribed in MAP-21.
- 4. STP-U include deductions taken for TAP, SPR, BRR, STP-L, and STP-C.
- 5. The resources available for STP-L have been adjusted to match the region's Mark, which accounts for adjustments made due to the use of advanced funding by some subregional councils.
- 6. Advanced Construction amounts are deducted from carryover, so they cannot be programmed against.
